30 May 2026

Hi team,

Quick update from our side on the Singapore entities. ACRA has tightened a few of the annual return requirements this year, so we'll likely need fresh director particulars for the APAC vehicles over the coming weeks — nothing urgent yet, but worth flagging now.

One thing that keeps coming up: **FGI Singapore Solar III** shows as dissolved in your register, but we still have open compliance items against it on our end (an unfiled return and a registered-agent fee outstanding). Could someone confirm whether this entity was actually wound up? If so, we should close out the open items; if not, the status looks wrong.

Happy to jump on a call if easier.

Cheers,

Wei Lin
